EDUCATION

Bachelor of Technology in Computer Science and Engineering

CGPA: 9.36

Jaypee University of Engineering and Technology, Guna, MP

July 2023 - July 2027

PROJECTS

ReWire - Adaptive study app | *Tech Stack- Flutter, Dart, Django, MySQL, Gemini API, Firebase*

- Built a smart study planner that adapts to user performance and suggests revision topics using Gemini API; reduced API response latency by ~20% through optimized caching and lightweight payload design.
- Integrated Firebase Auth & Realtime Database to track user progress and session logs across devices.
- Achieved 90%+ UI test coverage with Flutter integration tests; implemented dynamic topic weighting using server-side Django logic.

EduScan - OCR extraction | *Tech Stack-: Python, OpenCV, OCR (Tesseract)*

- Developed an AI-powered system to extract structured academic data from scanned marksheets using OCR and image preprocessing techniques, reducing manual data entry time by ~70%.
- Designed a backend validation pipeline to auto-verify subject totals, grades, and inconsistencies before persisting data into a relational database.
- Enabled multi-marksheet uploads with structured JSON output, making the system scalable for institutional use..

Amazon Clone – Full-stack e-commerce web application | *Tech Stack- React, Node.js, Express, PostgreSQL*

- Built an Amazon-like platform with product listing, search, cart, and checkout functionality.
- Developed RESTful APIs with Node.js and Express to manage products, users, and orders.
- Integrated PostgreSQL for efficient data storage and retrieval

EXPERIENCE

Agency Brainspark

June 2025

HR Intern

Remote

- Supported candidate data management and onboarding using internal tools; helped optimize HR workflows and improve hiring turnaround by 20%.

Department Of Computer Science, JUET

Jan 2025

Technical Speaker

Guna, MP

- Initiated and conducted a 2-hour session on Object-Oriented Programming in C++ for 200+ first-year students; explained real-world applications, demonstrated live coding, and clarified key paradigms like classes, objects, inheritance, and polymorphism to boost onboarding and conceptual clarity.

Computer Society of India (BITWISE), JUET

Aug. 2024 - Present

Club Leader

Guna, MP

- Organized 5+ tech events and workshops; mentored 30+ juniors in Flutter and Git basics.

ACHIEVEMENTS

- Secured 3rd place in college-level coding competition Coadethon.
- Solved 300+ problems across platforms, including 250+ on LeetCode.
- Participated in a college hackathon and received faculty appreciation for my contributions.
- Consistently ranked in the top 3% academically across all 5 semesters.

SKILLS

Languages: C, C++, Java, Python, Dart, SQL, Bash

Web & App Dev: Flutter, Django, Firebase, HTML, CSS, JavaScript

Tools: Git, GitHub, Android Studio, WSL (Ubuntu), VS Code

CS Fundamentals: Data Structures, OOP, Algorithms, SDLC, Agile

Soft Skills: Public Speaking, Team Leadership, Event Management
